

WADIH JREISSATI & FILS

A century-old family business founded in 1905. Representing the biggest sanitary and flooring names in the world, the company specializes in importing and selling prestigious sanitary ware, bathroom accessories and fittings as well as a myriad of flooring materials and tiles. Always on the look-out, the company's creative team scours the biggest exhibitions and showrooms in the world to present first-in-the-region unique and unparalleled high-tech accessory products that complete the sleek design and style of our items.

Our headquarter offices and showroom are conveniently located in the heart of the industrial area of Sin El Fil, Lebanon, with a sister company located in Erbil, Iraq.

Today, Wadih Jreissati & Fils sal caters for the entire Middle East and North Africa region

GREEN SOLUTIONS

WJF provides through a sister company all forms of Green Solutions; we supply solar water heating and lighting systems, as well as their installations. The company also specializes in water solutions and irrigation systems for planning and implementation. We also provide an array of light equipment and products including a wide selection of LED lighting.

CONSULTANCY & DESIGN DIVISIONS

WJF Consultancy Division handles construction and real estate consultancy. The department presents clients with tailored turn-key solutions in all aspects of the construction sector:

- Project management
- Construction and development consultancy including specification and supply of building material
- Project Planning & Design
- Property analysis and valuation.

Our Creative Division offers interior design and landscaping services. The team handles all aspects of the design process. Our work scope includes 360' design solutions, from interior structure and space to material and furnishing, Kitchen & Bath design, Lighting, Décor, Interior Plantscaping and Exterior Landscaping.

WJF TEAM & SERVICE

Our biggest asset is our ever-growing team of professionals. We continuously invest in our sales and creative teams through workshops, product trainings, and client servicing.

We have deliberately combined creative skills in all our client relations teams; this is in aim to offer the best service possible. Whether through our sales, consultants, or designers, all teams are recruited and trained on functional as well as aesthetic skills, allowing them to meet client demands with professional and artistic solutions.

Our service process is comprehensive until completion; material supply and applying, testing & commissioning, and after sales service. We also provide an international dimension to our services, servicing clients all over the world irrespective of their geographical locations.
